FOREWORD

A key mandate of the Strategic Research and Statistics Division, Citizenship and Immigration Canada (CIC), is the dissemination of immigration data. Our annual publication, *Facts and Figures: Immigration Overview—Permanent and Temporary Residents*, is one of the main sources of immigration statistics for both the government and the private sector. For this reason, we try to provide information on admissions to Canada that is of greatest interest to all parties.

In order to provide useful and relevant information, our annual publication has been redesigned to include several new features affecting not only the look of the statistical tables and charts, but also the content. Statistical data previously published separately in *Facts and Figures: Immigration Overview* and *Facts and Figures: Statistical Overview for the Temporary Resident and Refugee Claimant Population* are now available in one publication. Annual information is provided for ten-year periods rather than three years, along with gender-based statistics for both permanent and temporary residents. A glossary has also been included to provide definitions for the terms and concepts used in the publication.

Our new publication, *Facts and Figures 2003: Immigration Overview—Permanent and Temporary Residents*, presents the annual intake of permanent and temporary residents to Canada from 1980 to 2003, as well as the annual December 1 stock of temporary residents in Canada during this period. The main body of the publication consists of a series of statistical tables and charts covering the ten-year period from 1994 to 2003. The publication is divided into two separate sections, each depicting selected characteristics for the permanent resident population or the temporary resident population during this ten-year period.

All statistical information provided in this publication is derived from CIC's administrative data files. Based on the Permanent Resident Data System (PRDS), the statistics are provided for four main categories of permanent residents: family class, economic immigrants, refugees and other immigrants. The statistics on temporary residents and refugee claimants are derived from the Client-Based Data System (CBDS). CBDS is a system for reporting administrative information that enables us to look at temporary residents and refugee claimants from either a client perspective or a document perspective. In this publication, we focus on the client as the key reporting unit rather than the number of permits or authorizations issued. We have defined four primary status groups of temporary residents based on their primary motivation for being in Canada—foreign workers, foreign students, humanitarian cases (including refugee claimants) and other cases. CIC's Client-Based Data System makes this focus on client-based reporting possible for the temporary resident and refugee claimant population.

For information on Citizenship and Immigration Canada, its priorities and activities, publications and reports, as well as application guides and forms, visit the CIC Web site at www.cic.gc.ca

OVERVIEW ■ ANNUAL IMMIGRATION

Since June 28, 2002, Canada's immigration program has been based on the *Immigration and Refugee Protection Act* (IRPA) and its regulations. IRPA replaces the *Immigration Act* of 1976 and makes a clear distinction between the basic social, cultural and economic goals of the immigration program and the humanitarian goals of the refugee protection program.

There are three basic categories of permanent residents: the economic class (skilled workers, business immigrants, professional nominees and live-in caregivers, as well as members of their immediate family); the family and sponsored persons category (children, parents and grandparents of the sponsors); and the protected persons category (government-assisted and privately sponsored refugees selected abroad, individuals who are recognized in Canada as Convention refugees, persons in need of protection, as well as persons who have been granted protection through the pre-removal risk assessment process). Protected persons may include their family members in their application for permanent residence. In exceptional circumstances based on humanitarian, compassionate or public policy considerations, Citizenship and Immigration Canada (CIC) has the authority to grant permanent resident status to foreign nationals who do not meet the usual selection criteria. In addition to selecting permanent residents, CIC also grants temporary residence to foreign nationals who come to Canada to work, study or visit.

IRPA requires the minister of Citizenship and Immigration Canada to table an annual report to Parliament by November 1 of each year. This report includes information on CIC's activities and initiatives; the number of new permanent residents admitted during the year and the number projected for the following year; the number of permanent residents in each class admitted in the provinces that are responsible for selection under a federal-provincial agreement; the linguistic profile of new permanent residents; the number of temporary residents; the number of people granted permanent residence on humanitarian grounds; and a gender-based analysis of the immigration program.

The *Annual Report to Parliament on Immigration* is a presentation of the annual immigration levels plan. It provides an overview of projected immigration levels for the upcoming year as well as a comparison of planned versus actual levels for the current year. CIC's annual immigration plan provides a target range for the number of newcomers expected to become permanent residents in any given calendar year. In 2003, a total of 221,352 people became permanent residents of Canada. This number falls within the planned target range of 220,000 to 245,000 new permanent residents.

Facts and Figures: Immigration Overview: Permanent and Temporary Residents provides statistical information on Canada's immigration program within an analytical framework, but also presents a reconciliation of CIC's immigration program to the immigration levels plan. Differences may be noted between immigration as viewed from a levels planning perspective and immigration as described within an analytical framework. In this publication, cases processed under special circumstances or within historically specific programs (e.g., backlog cases and some humanitarian and compassionate cases) have been reallocated to categories that would have applied under usual circumstances. The annual levels achieved for the current year (no backlog reallocation) are presented along with a table showing the reallocation of backlog cases and another showing permanent residents by category with the reallocation of backlog and humanitarian and compassionate cases. Sponsored humanitarian and compassionate cases within the family class are included in the family class category.

An historical perspective of immigration flows from 1860 to 2003 is also included in this section of the publication, along with the number of permanent residents as a percentage of the total Canadian population throughout this time period. Historical highlights relevant to Canada's immigration program throughout the 20th century (and into the early years of the 21st century) have also been included.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "I". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

Canada – Permanent Residents, 1860 to 2003

Historical highlights

- 1896 to 1905: the settlement of the West with an offer of free land results in large numbers of immigrants from the United Kingdom, Europe and the United States
- 1906: *Immigration Act*
- 1910: *Immigration Act*
- 1913: 400,000 immigrants arrive in Canada
- 1914 to 1918: immigration slump during World War I
- 1928: opening of Halifax's Pier 21 – the Atlantic gateway to Canada
- 1930s: extremely low levels of immigration during the Depression years
- 1940s: during and after World War II, approximately 48,000 war brides and their 22,000 children arrive in Canada
- 1950s: Canada receives about one and a half million immigrants from Europe
- 1952: *Immigration Act*
- 1956 and 1957: Canada accepts 37,500 Hungarian refugees
- 1962: new immigration regulations are tabled to eliminate all discrimination based on race, religion and national origin
- 1967: the government amends Canada's immigration policy and introduces the point system for the selection of skilled workers and business immigrants
- 1968 and 1969: Canada accepts over 100,000 Hungarian refugees
- 1972: Canada resettles more than 6,175 Ugandan Asians
- 1973: Canada accepts more than 6,000 Chileans
- 1975 to 1978: Canada resettles almost 9,000 Indochinese
- 1976: *Immigration Act*
- 1979 and 1980: 60,000 Vietnamese, Cambodian and Laotian "boat people" arrive in Canada
- 1999: Canada accepts more than 7,000 Kosovars
- 2002: *Immigration and Refugee Protection Act (IRPA)*

PERMANENT RESIDENTS

The *Immigration and Refugee Protection Act* establishes three basic categories of permanent residents, which correspond to major program objectives: reuniting families, contributing to economic development and protecting refugees. In addition, there is a fourth category comprised of other immigrants. The family class is comprised of foreign nationals sponsored by close relatives or family members in Canada and includes spouses, fiancés, and dependent children, parents and grandparents. Economic immigrants are people selected for their skills and ability to contribute to Canada's economy, including skilled workers, business immigrants, provincial nominees and live-in caregivers. The skilled worker component includes immigrants who are able to demonstrate their ability to enter the labour market and successfully establish in Canada by passing a selection test that assesses factors such as education, English or French language abilities, and work experience involving certain skills. The business immigrant component includes those who invest their money in an approved venture, those who intend to run their own business, or those who intend to be self-employed. Refugees include government-assisted refugees, privately sponsored refugees, refugees landed in Canada and dependants of refugees landed in Canada who live abroad. Other immigrants include temporary resident permit holders, humanitarian and compassionate cases (that is, persons exempted from the requirements of IRPA or its regulations by the minister of Citizenship and Immigration Canada for humanitarian or public policy reasons), retirees, persons with deferred removal orders, and post-determination refugee claimants.

Selected landing and sociodemographic characteristics are presented for all permanent residents (immigrants and refugees) for the 1994 to 2003 calendar years. Statistical tables and charts provide gender-based information on immigrant category, source countries, intended destination upon arrival in Canada, age at landing, level of education, marital status, language ability, occupational skill level and intention to work. Information pertaining to marital status, level of education, occupational skill level and intention to work is presented only for the permanent resident population 15 years of age or older. This population corresponds to the labour force population as defined in the Census of Population. Supplementary tables for the permanent resident population include statistical information showing the number of years of schooling for children less than 15 years old, the top ten source countries for each world source area, the level of education for new workers and the occupational skill level for skilled workers.

All statistical information for permanent residents in this section refers to principal applicants and dependants (unless otherwise noted) and includes backlog cases.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and reproduced with the notation "-". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

Bar chart showing the percentage of immigrants by class from 1994 to 2003. The Y-axis represents the percentage (0% to 70%). The X-axis represents the years (1994 to 2003). The legend indicates four categories: Family class (dark grey), Economic Immigrants (light grey), Refugees (white), and Other immigrants (medium grey).

Year	Family class	Economic Immigrants	Refugees	Other immigrants
1994	45%	2%	1%	52%
1995	40%	2%	1%	57%
1996	34%	2%	1%	63%
1997	32%	2%	1%	65%
1998	34%	2%	1%	63%
1999	34%	2%	1%	63%
2000	32%	2%	1%	65%
2001	32%	2%	1%	65%
2002	34%	2%	1%	63%
2003	37%	2%	1%	60%

TEMPORARY RESIDENTS

In addition to the selection of permanent residents, the immigration program provides for the temporary entry of foreign workers and business people, foreign students and tourists. CIC admits a wide range of temporary residents who come to Canada as workers, students or visitors. The temporary resident population is comprised of four mutually exclusive groups: foreign workers, foreign students, individuals in the humanitarian group and other cases. Foreign workers are in Canada primarily to work, although they may also have other permits or authorizations. Foreign students are in Canada primarily to study, although they too may have other permits or authorizations. Individuals in the humanitarian group are primarily refugee claimants, but this group also includes certain people allowed to remain in Canada on humanitarian grounds due to other "special considerations." The inclusion of refugee claimants in the humanitarian cases group warrants special mention. They are included in this group along with individuals who did not make refugee claims, according to the administrative data systems, but who were processed under special programs established to handle refugee-like cases. The humanitarian cases group includes a small number of individuals who have been allowed to remain in Canada on humanitarian or compassionate grounds but who have never been granted refugee status. The final group—other cases—is not profiled in this publication. It comprises individuals who do not fit into any of the other categories.

The statistical information presented in this section is based on the individual's primary motivation for coming to Canada—to work or to study—although individuals in either group may also be in possession of other permits or authorizations. Information is also provided for the humanitarian component of the temporary resident population. A summary of gender-based flow statistics (based on the calendar year) and stock statistics (based on December 31 of the calendar year) is provided for 1980 through 2003. In addition, for each group, gender-based flow and stock statistics for foreign workers and students are provided by country of origin, place of residence in Canada (provinces, territories and urban area), skill level for foreign workers, and level of study for foreign students. For adult refugee claimants showing the percentage who have been granted authorization to remain in Canada following their arrival in Canada.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "-". As a result, components may not sum to total indicated. In general, cells with values less than five cases except in circumstances where, in our judgement, we are not aware of a small number of identifiable individual.

GLOSSARY OF TERMS AND CONCEPTS

Age: Five age groups are shown for permanent residents: 0 to 14 years, 15 to 24 years, 25 to 44 years, 45 to 64 years and 65 years or older. Age refers to age at landing (when granted permanent resident status).

Assisted relatives: The assisted relative category is a pre-IRPA immigration category that includes independent immigrant who receive additional bonus points for having a relative in Canada and who do not qualify as members of the family class. An assisted relative may be the son or daughter, brother or sister, niece or nephew, aunt or uncle, or grandson or granddaughter of a Canadian citizen or a permanent resident who is at least 19 years of age and who resides in Canada.

Backlog cases: People granted permanent resident status as part of the 1989 Refugee Backlog Clearance program.

Business immigrants: Permanent residents in the *economic immigrant* category selected on the basis of their ability to establish themselves economically in Canada through entrepreneurial activity, self-employment or direct investment. Business immigrants include entrepreneurs, self-employed people and investors. The spouse or partner and the children of the business immigrant are also included in this category.

Category: Four immigration categories are shown for permanent residents: family class, economic immigrants, refugees and other immigrants. In reference to labour market characteristics, the economic immigrant category is further divided into two subgroups: principal applicants, and spouses and dependants.

Common-law partner: A common-law partner is a person who has been living in a conjugal relationship with the sponsor for at least one year. The term refers to both opposite-sex and same-sex relationships. The sponsor must be a Canadian citizen or a permanent resident who is at least 18 years of age and who resides in Canada.

Conjugal partner: A conjugal partner is a person who has maintained a conjugal relationship with the sponsor for at least one year but has been unable to live with the sponsor because of immigration impediments. The term refers to both opposite-sex and same-sex couples. The sponsor must be a Canadian citizen or a permanent resident who resides in Canada and who is at least 18 years of age.

Country of asylum class: This class includes people who are outside their country of citizenship or habitual residence and who are seriously and personally affected by civil war, armed conflict, or massive violations of human rights. The individuals selected under this class must be privately sponsored or have adequate financial means to support themselves and their dependants.

Convention refugee: A person who has a well-founded fear of persecution based on his or her race, religion, nationality, political opinions or membership in a particular social group; who is outside the country of his or her nationality and is unable or, by reason of that fear, unwilling to be protected by that country; or who, not having a country of nationality, is outside the country of his or her former habitual residence and is unable or, by reason of that fear, unwilling to return to that country. Canada is a signatory to the United Nations 1951 Geneva Convention Relating to the Status of Refugees and its 1967 protocol, which protects refugees from being returned to a country where they would be persecuted.

Convention refugees abroad class: This class is intended for people who are outside their country of citizenship or habitual residence and who have a well-founded fear of persecution for reasons of race, religion, political opinion, nationality or membership in a particular social group. The individuals selected under this class may be sponsored by the government or may be privately sponsored.

Deferred removal orders: Permanent residents determined to be members of the deferred removal orders class who are included in the *other immigrant* category. This class was established to resolve the cases of certain failed refugee claimants who have not been removed from Canada.

Dependent children: Children are dependent if they are unmarried and under the age of 22, or if they have been full-time students since before the age of 22, attend a post-secondary education institution and have been substantially dependent on the financial support of a parent since before the age of 22 or, if married or a common-law partner, since becoming a spouse or a common-law partner, or if 22 or older, they have been substantially dependent on the financial support of a parent since before the age of 22 because of a physical or mental condition. A dependent child is either a biological child or an adopted child.

University of Toronto Libraries
Toronto, Ontario, Canada M5S 1A5

Before IRPA (June 28, 2002), the dependent children of a landed immigrant were defined as children who were unmarried and under 19 years of age or who were continuously enrolled as full-time students in an educational institution and financially supported by their parents since reaching the age of 19 (or, if married before the age of 19 from the date of their marriage) or who, because of a medical condition, were unable to support themselves and were dependent on their parents for financial support.

Economic immigrants: Permanent residents selected for their skills and ability to contribute to Canada's economy. The *economic immigrant* category includes skilled workers, business immigrants, provincial or territorial nominees and live-in caregivers.

Employment authorization: See **Work permit**.

Entrepreneurs: Economic immigrants in the *business immigrant* category selected on the condition that they intend and have the ability to establish, purchase or make a substantial investment in a business in Canada that will contribute significantly to the economy and create jobs.

Government-assisted refugees: Permanent residents in the *refugee* category who are selected for resettlement under the Convention relating to the Status of Refugees or other international agreements and who are eligible to receive financial assistance.

Family class: Permanent residents sponsored by a Canadian citizen or a permanent resident living in Canada who is at least 19 years of age. *Family class* immigrants include spouses and partners (i.e., spouse, common-law partner or conjugal partner); parents and grandparents; and others (i.e., dependent children, children under the age of 18 whom the sponsor intends to adopt in Canada, children of whom the sponsor is the guardian, as well as brothers, sisters, nephews, nieces and grandchildren who are orphans under the age of 18, or any other relative if the sponsor has no relative as described above, either abroad or in Canada).

Foreign students: This category includes individuals who enter Canada to study on a temporary basis. Every foreign student must have been issued a study permit for courses longer than six months but may also have been issued other types of permits or authorizations. The *foreign student* category excludes foreign workers who may have been issued a study permit, as well as humanitarian and compassionate cases who have been issued a study permit.

Foreign workers: This category includes individuals who enter Canada to work on a temporary basis. Every foreign worker must have been issued a work permit but may also have been issued other types of permit or authorizations. The *foreign worker* category excludes foreign students who may have been issued a work permit and individuals who have been issued a work permit for humanitarian reasons, such as refugee claimants.

Humanitarian and compassionate cases: Permanent residents in the *other immigrant* category, including sponsored humanitarian and compassionate cases outside the family class, as well as humanitarian and compassionate cases without sponsorship and cases that take into account public policy. Sponsored humanitarian and compassionate cases within the family class are included in the *family class* immigrant category.

Immigration Act (1976): Federal legislation respecting immigration to Canada. The *Immigration Act* of 1976 became law in 1978 and remained in effect until June 27, 2002.

Immigration and Refugee Protection Act (IRPA): Federal legislation respecting immigration to Canada and the granting of refugee protection to people who are displaced, persecuted or in danger. IRPA received royal assent on November 1, 2001, and came into effect on June 28, 2002.

Independent immigrants: The independent immigrant category is a pre-IRPA immigration category that includes skilled workers selected for their labour market skills and business immigrants selected on the basis of their business experience and other related skills.

Investors: Economic immigrants in the *business immigrant* category who are required to make a substantial investment in Canada that is allocated to participating provinces and territories for economic development and job creation.

University of Toronto Libraries
Toronto, Ontario, Canada M5S 1A5

Language ability: Four levels of language ability in one of Canada's official languages are shown for permanent residents: English only, French only, both French and English, and neither language. The level of language ability is self-assessed.

Level of education: Eight levels of education have been determined for permanent residents who are 15 years of age or older, based on the number of years of schooling or the certificate, diploma or degree obtained.

- ▮ 0 to 9 years of schooling
- ▮ 10 to 12 years of schooling
- ▮ 13 or more years of schooling, with no additional certificate, diploma or degree
- ▮ Trade certificate: completion of vocational training at non-university educational institutions
- ▮ Non-university diploma: completion of a diploma program not at the university or trade level
- ▮ Bachelor's degree: completion of a bachelor's program at the university level
- ▮ Master's degree: completion of a master's program at the university level
- ▮ Doctoral degree: completion of a doctoral program at the university level

Level of study: Five levels of study have been determined for foreign students.

- ▮ Secondary or less: primary or secondary educational institutions in Canada
- ▮ Trade: vocational trade at non-university educational institutions in Canada (such as technical and vocational institutions, CEGEPs and colleges)
- ▮ University: undergraduate, postgraduate (master's and doctoral) and other studies at university institutions
- ▮ Other post-secondary or post-secondary level of study not at the university: other post-secondary institutions, private institutions and university qualifying programs
- ▮ Other: foreign students not classified in any of the above levels of study

Live-in caregivers: *Economic immigrants* granted permanent resident status after their participation in the Live-in Caregiver Program. This program brings temporary residents to Canada as live-in employees to work without supervision in a private household to care for children, seniors or people with disabilities. Participants in this program may apply for permanent resident status within three years of arrival in Canada, after completing two years of employment as live-in caregivers. The Live-in Caregiver Program replaced the Foreign Domestic Movement Program on April 27, 1992.

New workers: Permanent residents who are intending to work in Canada but whose occupational skill level has not been assessed.

Occupational skill level: Five skill levels, based on the National Occupational Classification, have been determined for permanent residents 15 years of age or older as well as for foreign workers.

- ▮ Skill level O (managerial): management occupations
- ▮ Skill level A (professional): professional occupations in business and finance; natural and applied sciences; health; social science, education, government service, and religion; and art and culture
- ▮ Educational or training requirements: university degree
- ▮ Skill level B (skilled and technical): skilled or technical occupations in administration and business; natural and applied sciences; health; law, social service, education, and religion; art, culture, recreation and sport; sales and service; as well as trades and skilled transport and equipment operators; skilled occupations in primary industries; and processing, manufacturing and utilities supervisors and skill-based operators
- ▮ Educational or training requirements: two to three years of post-secondary education, or two to five years of apprenticeship training, or three to four years of secondary school and more than two years of on-the-job training, occupation-specific training courses or specific work experience

University of Toronto Libraries
Toronto, Ontario, Canada M5S 1A5

- Skill level C (intermediate and clerical): clerical occupations; assisting occupations in health services; intermediate sales and service occupations; intermediate occupations in construction; intermediate occupations in primary industries; as well as processing and manufacturing machine operators and assemblers

Educational or training requirements: one to four years of secondary school education, or up to two years of on-the-job training, training courses or specific work experience

- Skill level D (elemental and labourers): elemental sales and service occupations and labourers in construction; primary industries; and processing, manufacturing and utilities

Educational or training requirements: no formal educational requirements; short work demonstration or on-the-job training

Other immigrants: Permanent residents in the *other immigrant* category include post-determination refugee claimants, deferred removal orders, retirees, temporary resident permit holders, and humanitarian and compassionate cases

Permanent residents: Permanent residents have been granted permanent residence status and are authorized to enter and remain in Canada. Permanent residents must live in Canada for at least 730 days (two years) within a five-year period to become Canadian citizens. Permanent residents have all the rights, privileges and responsibilities of *Rights and Freedoms* such as equality rights, legal rights, mobility rights, freedom of religion, freedom of expression and freedom of association.

Post-determination refugee claimants: Permanent residents determined to be members of the post-determination refugee claimants in Canada class (PDRCC) who are included in the *other immigrant* category. The PDRCC class is a prescribed class where permanent residence is granted to protect a client from a threat in the country of nationality or origin where there is a risk to the life of the applicant, or a risk of excessive sanctions or inhumane treatment

Primary status: Temporary residents are categorized according to the principal reason for residing in Canada. The four categories of temporary residents are *foreign workers*, *foreign students*, the *humanitarian population*, and *other temporary residents*. Since 1989, the humanitarian component has consisted primarily of refugees. Temporary residents in the four categories, referred to as primary status, are mutually exclusive: any person included in one category is excluded from the others.

Privately sponsored refugees: Permanent residents in the *refugee* category who are selected for resettlement in the Convention refugees abroad class, the source country class or the country of asylum class and who are privately sponsored by organizations, individuals or groups of individuals.

Province or territory: Refers to the province or territory of intended destination in Canada.

Provincial or territorial nominees: *Economic immigrants* selected by a province or territory for specific skills that will contribute to the economic development of the province or territory. The provincial or territorial nominee class, allowing provinces and territories that have agreements with CIC to nominate a certain number of workers. A nominee must meet federal admissibility requirements, such as those related to health and security

Refugee claimants: Refugee claimants are temporary residents in the *humanitarian population* category who request refugee protection upon or after arrival in Canada. A refugee claimant receives Canada's protection when he or she is found to be a Convention refugee as defined by the United Nations 1951 Geneva Convention Relating to the Status of Refugees and its 1967 protocol, or when found to be a person needing protection based on risk to life, risk of cruel and unusual treatment or punishment, or danger of torture as defined in the Convention against Torture. A refugee claimant whose claim is accepted may make an application in Canada for permanent residence within 180 days. The applicant may include family members in Canada and abroad

Refugee dependants: Refugee dependants are permanent residents in the *refugee* category who are family members of a refugee landed in Canada, and who are living abroad or in Canada. Their applications for permanent residence are considered concurrently with that of the principal applicant in Canada.

University of Toronto Libraries
Toronto, Ontario, Canada M5S 1A5

Refugees: Permanent residents in the refugee category include government-assisted refugees, privately sponsored refugees, refugees landed in Canada and refugee dependants (i.e., dependants of refugees landed in Canada including spouses and partners living abroad or in Canada).

Refugees landed in Canada: Permanent residents in the *refugee* category who have had their refugee claims accepted and who subsequently applied for and were granted permanent resident status in Canada.

Retirees: This immigration category, phased out in 1991, includes permanent residents in the *other immigrant* category who are over the age of 55, who come to Canada with no intention of working and who have sufficient funds to support themselves.

Self-employed: Economic immigrants in the *business immigrant* category selected on the condition that they can and intend to create their own employment in Canada and contribute significantly either to the Canadian economy or to the cultural or athletic life of Canada (as, for example, farmers, artists, actors, writers or professional athletes).

Skilled workers: *Economic immigrants* selected for their ability to participate in the labour market and to establish themselves economically in Canada. Skilled workers are assessed on the basis of selection criteria that stress education, language ability and skilled work experience rather than a specific occupation. Before IRPA, the skilled worker category included assisted relatives and independent immigrants.

Source area: Five major world regions are shown: Africa and the Middle East, Asia and Pacific, South and Central America, the United States, and Europe and the United Kingdom.

Source countries: Refers to the principal country of last permanent residence for all permanent residents and temporary residents, with the exception of refugee claimants. For refugee claimants, it refers to the principal country of alleged persecution (COAP). The ranking of the top ten source countries is based on the annual flow or stock in the most recent year.

Source country class: This class includes people who would meet the definition of a Convention refugee or a person in their country of citizenship or habitual residence. The class also includes people who have been persecuted or who are suffering serious deprivations of the right of freedom of expression, the right of dissent, or the right of political participation, or who are victims of political or human rights abuses. The current list includes Colombia, the Democratic Republic of the Congo, El Salvador, Guatemala, Sierra Leone, Sudan. Individuals selected under this class are eligible for government assistance or may be privately sponsored.

Spouse and dependants: Permanent residents who are the spouse, common-law or conjugal partner, or dependent children of the principal applicant. Before IRPA (June 28, 2002), dependants were defined as the spouse and the dependent children of the principal applicant.

Student authorization: See **Study permit**.

Study permit: A temporary resident permit authorizing foreign nationals to enter and study in Canada on a temporary basis. The study permit identifies the level of study and the length of time the individual may study in Canada. Students do not need a study permit for courses shorter than six months.

Temporary resident flow: This represents the number of temporary residents who have entered the Canadian system (and presumably the country) for the first time. CIC commonly measures the annual flow of foreign workers, foreign students and the combined flow of all of the temporary residents (except in the case of seasonal workers). The earliest effective date of any valid permit issued to a temporary resident. Seasonal workers are counted each time they re-enter the system.

Temporary resident permit holders: Permanent residents in the *other immigrant* category who have lived continuously in Canada for three to five years under the authority of a temporary resident permit.

University of Toronto Libraries
Toronto, Ontario, Canada M5S 1A5

Temporary resident stock: Stock statistics measure the number of temporary residents present in the CIC system on a specific date. For the purposes of this publication, the date chosen is December 1. CIC commonly measures the annual stock of foreign workers, foreign students and the humanitarian component of the temporary resident population. A temporary resident who has been granted permanent resident status on or before the reporting date is excluded from the stock count from the grant date onward.

Temporary residents: Temporary residents are people who are lawfully in Canada on a temporary basis under the authority of a temporary resident permit. Temporary residents include foreign workers, foreign students, the humanitarian population and other temporary residents. The humanitarian population includes refugee claimants and temporary residents allowed to remain in Canada on humanitarian grounds, and who are not categorized as either foreign workers or foreign students. The other category of temporary residents is not profiled in this publication.

Urban area: Refers to selected urban areas in Canada that are the intended destination for permanent and temporary residents. The urban areas are either census metropolitan areas or census agglomerations as identified and named in accordance with Statistics Canada's 1996 census definitions for these geographical units.

Work permit: A temporary resident permit authorizing foreign nationals to enter and work in Canada on a temporary basis. A work permit is usually valid only for a specified job, employer and time period. Some people (for example, spouses or common-law partners of skilled foreign workers or foreign students) are issued open work permits, not specific work permits.

Years of schooling: Number of years of schooling for permanent residents who are 16 years of age or older.

FOREWORD

A key mandate of the Strategic Research and Statistics Division, Citizenship and Immigration Canada (CIC), is the dissemination of immigration data. Our annual publication, *Facts and Figures: Immigration Overview—Permanent and Temporary Residents*, is one of the main sources of immigration statistics for both the government and the private sector. For this reason, we try to provide information on admissions to Canada that is of greatest interest to all parties.

In order to provide useful and relevant information, our annual publication continues in a redesigned format dating from last year. The redesign includes several new features affecting not only the look of the statistical tables and charts, but also the content. Statistical data previously published separately in *Facts and Figures: Immigration Overview* and *Facts and Figures: Statistical Overview for the Temporary Resident and Refugee Claimant Population* are now available in one publication. Annual information is provided for ten-year periods rather than for three year periods, along with gender-based statistics for both permanent and temporary residents. A glossary has also been included to provide definitions for the terms and concepts used in the publication.

Facts and Figures 2004: Immigration Overview—Permanent and Temporary Residents presents the annual intake of permanent and temporary residents to Canada from 1980 to 2004, as well as the annual December 1 stock of temporary residents in Canada during this period. The main body of the publication consists of a series of statistical tables and charts covering the ten-year period from 1995 to 2004. The publication is divided into two separate sections, each depicting selected characteristics for the permanent resident population or the temporary resident population during this ten-year period.

All statistical information provided in this publication is derived from CIC's administrative data files. Based on the Permanent Resident Data System (PRDS), the statistics are provided for four main categories of permanent residents: family class, economic immigrants, refugees and other immigrants. The statistics on temporary residents and refugee claimants are derived from the Client-Based Data System (CBDS). The CBDS is a system for reporting administrative data that enables us to look at temporary residents and refugee claimants from either a client perspective or a document perspective. In this publication, we focus on the client as the key reporting unit rather than the number of permits or authorizations issued. We have defined four primary status groups of temporary residents based on the individual's primary motivation for being in Canada—foreign workers, foreign students, humanitarian cases (including refugee claimants) and other cases. CIC's Client-Based Data System makes this focus on client-based reporting possible for the temporary resident and refugee claimant population.

For information on Citizenship and Immigration Canada, its priorities and activities, publications and reports, as well as application guides and forms, visit the CIC Web site at www.cic.gc.ca.

OVERVIEW – ANNUAL IMMIGRATION

Since June 28, 2002, Canada's immigration program has been based on the *Immigration and Refugee Protection Act* (IRPA) and its regulations. IRPA replaces the *Immigration Act* of 1976 and makes a clear distinction between the basic social, cultural and economic goals of the immigration program and the humanitarian goals of the refugee protection program.

There are three basic categories of permanent residents: the economic class (skilled workers, business immigrants, provincial nominees and live-in caregivers, as well as members of their immediate family); the family class (spouses and partners, children, parents and grandparents of the sponsors); and the protected persons category (government-assisted and privately sponsored refugees selected abroad, individuals who are recognized in Canada as Convention refugees or persons in need of protection, as well as persons who have been granted protection through the pre-removal risk assessment process). Protected persons may include their family members in their application for permanent residence. In exceptional circumstances based on humanitarian, compassionate or public policy considerations, Citizenship and Immigration Canada (CIC) has the authority to grant permanent resident status to foreign nationals who do not meet the usual selection criteria. In addition to selecting permanent residents, CIC also grants temporary residence to foreign nationals who come to Canada to work, study or visit.

IRPA requires the minister of Citizenship and Immigration Canada to table an annual report to Parliament by November 1 of each year. This report includes information on CIC's activities and initiatives; the number of new permanent residents admitted during the year and the number projected for the following year; the number of permanent residents in each class admitted in the provinces that are responsible for selection under a federal-provincial agreement; the linguistic profile of new permanent residents; the number of temporary residents; the number of people granted permanent residence on humanitarian grounds; and a gender-based analysis of the immigration program.

The *Annual Report to Parliament on Immigration* is a presentation of the annual immigration levels plan. It provides an overview of projected immigration levels for the upcoming year as well as a comparison of planned versus actual levels for the current year. CIC's annual immigration plan provides a target range for the number of newcomers expected to become permanent residents in any given calendar year. In 2004, a total of 235,824 people became permanent residents of Canada. This number falls within the planned target range of 220,000 to 245,000 new permanent residents.

Facts and Figures: Immigration Overview—Permanent and Temporary Residents provides statistical information on Canada's immigration program within an analytical framework, but also presents a reconciliation of CIC's immigration program to the immigration levels plan. Differences may be noted between immigration as viewed from a levels planning perspective and immigration as described within an analytical framework. In this publication, cases processed under special circumstances or within historically specific programs (e.g., backlog cases and some humanitarian and compassionate cases) have been reallocated to categories that would have applied under usual circumstances. The annual levels achieved for the current year (no backlog reallocation) are presented along with a table showing the reallocation of backlog cases and another showing permanent residents by category with the reallocation of backlog and humanitarian and compassionate cases.

An historical perspective of immigration flows from 1860 to 2004 is also included in this section of the publication, along with the number of permanent residents as a percentage of the total Canadian population throughout this time period. Historical highlights relevant to Canada's immigration program throughout the 20th century (and into the early years of the 21st century) have also been included.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "—". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

* Includes independents and assisted relatives

** Dependents of refugees landed in Canada including spouses and partners

*** Deferred removal orders and post-determination refugee claimants

**** Note: The figures for "Humanitarian and compassionate grounds" have been adjusted since the publication of the *Annual Report to Parliament on Immigration* as the manner in which final numbers for these cases are calculated has been further refined for increased accuracy. This newer method has been applied to previous years, resulting in a modification of these numbers. As a result, numbers reported for certain categories of immigrants in *Facts and Figures 2003: Immigration Overview - Permanent and Temporary Residents* have been revised in this edition.

Canada – Permanent Residents, 1860 to 2004

Historical highlights

- 1896 to 1905: the settlement of the West with an offer of free land results in large numbers of immigrants from the United Kingdom, Europe and the United States
- 1906: *Immigration Act*
- 1910: *Immigration Act*
- 1913: 400,000 immigrants arrive in Canada
- 1914 to 1918: immigration slump during World War I
- 1928: opening of Halifax's Pier 21, the Atlantic gateway to Canada
- 1930s: extremely low levels of immigration during the Depression years
- 1940s: during and after World War II, approximately 48,000 war brides and their 22,000 children arrive in Canada
- 1950s: Canada receives about one and a half million immigrants from Europe
- 1952: *Immigration Act*
- 1956 and 1957: Canada accepts 37,500 Hungarian refugees
- 1962: new immigration regulations are tabled to eliminate all discrimination based on race, religion and national origin
- 1967: the government amends Canada's immigration policy and introduces the point system for the selection of skilled workers and business immigrants
- 1968 and 1969: Canada takes in 11,000 Czechoslovakian refugees
- 1972: Canada resettles more than 6,175 Ugandan Asians
- 1973: Canada accepts more than 6,000 Chileans
- 1975 to 1978: Canada resettles almost 9,000 Indochinese
- 1976: *Immigration Act*
- 1979 and 1980: 60,000 Vietnamese, Cambodian and Laotian "boat people" arrive in Canada
- 1999: Canada accepts more than 7,000 Kosovars
- 2002: *Immigration and Refugee Protection Act (IRPA)*

PERMANENT RESIDENTS

The *Immigration and Refugee Protection Act* establishes three basic categories of permanent residents, which correspond to major program objectives: reuniting families, contributing to economic development and protecting refugees. In addition, there is a fourth category comprised of other immigrants. The family class is comprised of foreign nationals sponsored by close relatives or family members in Canada and includes spouses and partners, dependent children, parents and grandparents. Economic immigrants are people selected for their skills and ability to contribute to Canada's economy, including skilled workers, business immigrants, provincial nominees and live-in caregivers. The skilled worker component includes immigrants who are able to demonstrate their ability to enter the labour market and successfully establish in Canada by meeting a selection criteria that assesses factors such as education, English or French language abilities, and work experience involving certain skills. The business immigrant component includes those who invest their money in an approved venture, those who intend to run their own business, or those who intend to be self-employed. Refugees include government-assisted refugees, privately sponsored refugees, refugees landed in Canada and dependants of refugees landed in Canada who live abroad. Other immigrants include temporary resident permit holders, humanitarian and compassionate cases (that is, persons exempted from the requirements of IRPA or its regulations by the minister of Citizenship and Immigration Canada for humanitarian or public policy reasons), retirees, persons with deferred removal orders, and post-determination refugee claimants.

Selected landing and sociodemographic characteristics are presented for all permanent residents (immigrants and refugees) for the 1995 to 2004 calendar years. Statistical tables and charts provide gender-based information on immigrant category, source countries, intended destination upon arrival in Canada, age at landing, level of education, marital status, language ability, occupational skill level and intention to work. Information pertaining to marital status, level of education, occupational skill level and intention to work is presented only for the permanent resident population 15 years of age or older. This population corresponds to the labour force population as defined in the Census of Population. Supplementary tables for the permanent resident population include statistical information showing the number of years of schooling for children less than 15 years old, the top ten source countries for each world source area, the level of education for new workers and the occupational skill level for skilled workers. This year tables on official language ability and mother tongue have been added.

All statistical information for permanent residents in this section refers to principal applicants and dependants (unless otherwise noted) and includes backlog cases.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "–". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

* Deferred removal orders and post-determination refugee claimants

** Humanitarian and Compassionate

*** Note: The figures for "Humanitarian and compassionate grounds" have been adjusted since the publication of the *Annual Report to Parliament on Immigration* as the manner in which final numbers for these cases are calculated has been further refined for increased accuracy. This newer method has been applied to previous years, resulting in a modification of these numbers. As a result, numbers reported for certain categories of immigrants in *Facts and Figures 2003: Immigration Overview - Permanent and Temporary Residents* have been revised in this edition.

* Deferred removal orders and post-determination refugee claimants

** Humanitarian and Compassionate

*** Note: The figures for "Humanitarian and compassionate grounds" have been adjusted since the publication of the *Annual Report to Parliament on Immigration* as the manner in which final numbers for these cases are calculated has been further refined for increased accuracy. This newer method has been applied to previous years, resulting in a modification of these numbers. As a result, numbers reported for certain categories of immigrants in *Facts and Figures 2003: Immigration Overview - Permanent and Temporary Residents* have been revised in this edition.

Canada – Permanent Residents 15 Years of Age or Older Intending to Work by Category and Language Ability, 2004 (Showing Percentage Distribution)

TEMPORARY RESIDENTS

In addition to the selection of permanent residents, the immigration program provides for the temporary entry of foreign workers and business people, foreign students and tourists. Citizenship and Immigration Canada admits a wide range of temporary residents who come to Canada as workers, students or visitors. The temporary resident population is comprised of four mutually exclusive groups: foreign workers, foreign students, individuals in the humanitarian group and other cases. Foreign workers are in Canada primarily to work, although they may also have other permits or authorizations. Foreign students are in Canada primarily to study, although they too may have other permits or authorizations. Individuals in the humanitarian group are primarily refugee claimants, but this group also includes certain people allowed to remain in Canada on humanitarian grounds due to other "special considerations." The inclusion of refugee claimants in the humanitarian cases group warrants special mention. They are included in this group along with individuals who did not make refugee claims, according to the administrative data systems, but who were processed under special programs established to handle refugee-like cases. The humanitarian cases group includes a small number of individuals who have been allowed to remain in Canada on humanitarian or compassionate grounds but who have never filed a refugee claim. The final group—other cases—is not profiled in this publication. It comprises individuals who do not fit into any of the other categories.

The statistical information presented in this section is based on the individual's primary motivation for being in Canada—to work or to study—although individuals in either group may also be in possession of other permits or authorizations. Information is also provided for the humanitarian component of the temporary resident population. A summary of gender-based flow statistics (based on the calendar year) and stock statistics (based on December 1 of the calendar year) is provided for 1980 through 2004. In addition, for each group, gender-based flow and stock statistics for the ten-year period from 1995 to 2004 are provided by country of origin, place of residence in Canada (provinces or territories and urban area), skill level for foreign workers, and level of study for foreign students. Statistics are also provided for adult refugee claimants showing the percentage who have been granted authorization to work at any time since their arrival in Canada.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "–". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

GLOSSARY OF TERMS AND CONCEPTS

Age: Five age groups are shown for permanent residents: 0 to 14 years, 15 to 24 years, 25 to 44 years, 45 to 64 years and 65 years or older. Age refers to age at landing (when granted permanent resident status).

Assisted relatives: The assisted relative category is a pre-IRPA immigration category that includes independent immigrants who receive additional bonus points for having a relative in Canada and who do not qualify as members of the family class. An assisted relative may be the son or daughter, brother or sister, niece or nephew, aunt or uncle, or grandson or granddaughter of a Canadian citizen or a permanent resident who is at least 19 years of age and who resides in Canada.

Backlog cases: People granted permanent resident status as part of the 1989 Refugee Backlog Clearance program.

Business immigrants: Permanent residents in the *economic immigrant* category selected on the basis of their ability to establish themselves economically in Canada through entrepreneurial activity, self-employment or direct investment. Business immigrants include entrepreneurs, self-employed people and investors. The spouse or common-law partner and the dependent children of the business immigrant are also included in this category.

Category: Four immigration categories are shown for permanent residents: family class, economic immigrants, refugees and other immigrants. In reference to labour market characteristics, the economic immigrant category is further divided into two subgroups: principal applicants, and spouses and dependants.

Common-law partner: A common-law partner is a person who has been living in a conjugal relationship with the sponsor for at least one year. The term refers to both opposite-sex and same-sex relationships. The sponsor must be a Canadian citizen or a permanent resident who is at least 18 years of age and who resides in Canada.

Conjugal partner: A conjugal partner is a person who has maintained a conjugal relationship with the sponsor for at least one year but has been unable to live with the sponsor because of immigration impediments. The term refers to both opposite-sex and same-sex couples. The sponsor must be a Canadian citizen or a permanent resident who resides in Canada and who is at least 18 years of age.

Deferred removal orders: Permanent residents determined to be members of the deferred removal orders class who are included in the *other immigrant* category. This category was established to resolve the cases of certain failed refugee claimants who have not been removed from Canada.

Dependent children: Children are dependent if they are unmarried and under the age of 22, or if they have been full-time students since before the age of 22, attend a post-secondary educational institution and have been substantially dependent on the financial support of a parent since before the age of 22 or, if married or a common-law partner, since becoming a spouse or a common-law partner, or if 22 or older, they have been substantially dependent on the financial support of a parent since before the age of 22 because of a physical or mental condition. A dependent child is either a biological child or an adopted child.

Before IRPA (June 28, 2002), the dependent children of a landed immigrant were defined as children who were unmarried and under 19 years of age or who were continuously enrolled as full-time students in an educational institution and financially supported by their parents since reaching the age of 19 (or, if married before the age of 19, from the date of their marriage) or who, because of a medical condition, were unable to support themselves and were dependent on their parents for financial support.

Economic immigrants: Permanent residents selected for their skills and ability to contribute to Canada's economy. The *economic immigrant* category includes skilled workers, business immigrants, provincial or territorial nominees and live-in caregivers.

Employment authorization: See Work permit.

Entrepreneurs: Economic immigrants in the *business immigrant* category who are selected on the condition that they have managed and controlled a percentage of equity of a qualifying business for at least two years in the period beginning five years before they apply, and that they have a legally obtained net worth of at least \$300,000 (Canadian). They must own and manage a qualifying business in Canada for at least one year in the three years following arrival in Canada.

Family class: Permanent residents sponsored by a Canadian citizen or a permanent resident living in Canada who is 18 years of age or over. *Family class* immigrants include spouses and partners (i.e., spouse, common-law partner or conjugal partner); parents and grandparents; and others (i.e., dependent children, children under the age of 18 whom the sponsor intends to adopt in Canada, brothers, sisters, nephews, nieces and grandchildren who are orphans under 18 years of age, or any other relative if the sponsor has no relative as described above, either abroad or in Canada). Fiancé(e)s are no longer designated as a component of the family class under the *Immigration and Refugee Protection Act*.

Foreign students: This category includes individuals who enter Canada to study on a temporary basis. Every foreign student must have been issued a study permit but may also have been issued other types of permits or authorizations. The *foreign student* category excludes foreign workers who may have been issued a study permit, as well as humanitarian and compassionate cases who have been issued a study permit.

Foreign workers: This category includes individuals who enter Canada to work on a temporary basis. Every foreign worker must have been issued a work permit but may also have been issued other types of permits or authorizations. The *foreign worker* category excludes foreign students who may have been issued a work permit associated with their studies or status as a student and individuals who have been issued a work permit for humanitarian reasons, such as refugee claimants.

Government-assisted refugees: Permanent residents in the *refugee* category who are selected for resettlement in the Convention refugees abroad class or the source country class and who are eligible for government assistance.

Humanitarian and compassionate cases: Permanent residents in the *other immigrant* category, including sponsored humanitarian and compassionate cases outside the family class, as well as humanitarian and compassionate cases without sponsorship and cases that take into account public policy.

Immigration Act (1976): Federal legislation respecting immigration to Canada. The *Immigration Act* of 1976 became law in 1978 and remained in effect until June 27, 2002.

Immigration and Refugee Protection Act (IRPA): Federal legislation respecting immigration to Canada and the granting of refugee protection to people who are displaced, persecuted or in danger. IRPA received royal assent on November 1, 2001, and came into effect on June 28, 2002.

Independent immigrants: The independent immigrant category is a pre-IRPA immigration category that includes skilled workers selected for their labour market skills and business immigrants selected on the basis of their business experience and other related skills.

Industrial codes: Economic immigrants in the *business immigrant* category who have declared their industry of activity, in lieu of their intended occupation.

Investors: Economic immigrants in the *business immigrant* category who are required to make a substantial investment in Canada that is allocated to participating provinces and territories for economic development and job creation.

Language ability: Four categories of language ability in one of Canada's official languages are shown for permanent residents: English only, French only, both French and English, and neither language. These are self-declared indicators of knowledge of an official language.

Level of education: Eight levels of education have been determined for permanent residents who are 15 years of age or older, based on the number of years of schooling or the certificate, diploma or degree obtained.

- 0 to 9 years of schooling
- 10 to 12 years of schooling
- 13 or more years of schooling, with no additional certificate, diploma or degree
- Trade certificate: completion of vocational training at non-university educational institutions
- Non-university diploma: completion of a diploma program not at the university or trade level

- Bachelor's degree: completion of a bachelor's program at the university level
- Master's degree: completion of a master's program at the university level
- Doctoral degree: completion of a doctoral program at the university level

Level of study: Five levels of study have been determined for foreign students.

- Secondary or less: primary or secondary educational institutions in Canada
- Trade: vocational trade at non-university educational institutions in Canada (such as technical and vocational institutions, CEGEPs and colleges)
- University: undergraduate, postgraduate (master's and doctoral) and other studies at university institutions in Canada
- Other post-secondary: post-secondary level of study, not at the university or trade level, including language institutions, private institutions and university qualifying programs
- Other: foreign students not classified in any of the above levels of study

Live-in caregivers: *Temporary residents* who have been issued a work permit to work in Canada as live-in caregivers or *economic immigrants* granted permanent resident status after their participation in the Live-in Caregiver Program. This program brings temporary residents to Canada as live-in employees to work without supervision in a private household to care for children, seniors or people with disabilities. Participants in this program may apply for permanent resident status within three years of arrival in Canada, after completing two years of employment as live-in caregivers. The Live-in Caregiver Program replaced the Foreign Domestic Movement Program on April 27, 1992.

New workers: Permanent residents who are intending to work in Canada but who are without a declared occupation. Occupational skill level cannot be assessed.

Occupational skill level: Five skill levels, based on the National Occupational Classification, have been determined for permanent residents 15 years of age or older as well as for foreign workers.

- Skill level O (managerial): management occupations
- Skill level A (professionals): professional occupations in business and finance; natural and applied sciences; health; social science, education, government service, and religion; and art and culture

Educational or training requirements: university degree

- Skill level B (skilled and technical): skilled or technical occupations in administration and business; natural and applied sciences; health; law, social service, education, and religion; art, culture, recreation and sport; sales and service; as well as trades and skilled transport and equipment operators; skilled occupations in primary industries; and processing, manufacturing and utilities supervisors and skilled operators

Educational or training requirements: two to three years of post-secondary education, or two to five years of apprenticeship training, or three to four years of secondary school and more than two years of on-the-job training, occupation-specific training courses or specific work experience

- Skill level C (intermediate and clerical): clerical occupations; assisting occupations in health services; intermediate occupations in sales and services; transport, equipment operations, installation and maintenance; primary industries; as well as processing and manufacturing machine operators and assemblers

Educational or training requirements: one to four years of secondary school education, or up to two years of on-the-job training, training courses or specific work experience

- Skill level D (elemental and labourers): elemental sales and service occupations and labourers in construction; primary industries; and processing, manufacturing and utilities

Educational or training requirements: no formal educational requirements; short work demonstration or on-the-job training

Other immigrants: Permanent residents in the *other immigrant* category include post-determination refugee claimants, deferred removal orders, retirees (no longer designated under the *Immigration and Refugee Protection Act*), temporary resident permit holders, humanitarian and compassionate cases, sponsored humanitarian and compassionate cases outside the family class, and people granted permanent resident status based on public policy considerations.

Permanent residents: People who have been granted permanent resident status in Canada. Permanent residents must live in Canada for at least 730 days (two years) within a five-year period or risk losing their status. Permanent residents have all the rights guaranteed under the Canadian Charter of Rights and Freedoms such as equality rights, legal rights, mobility rights, freedom of religion, freedom of expression and freedom of association. They do not, however, have the right to vote in elections.

Post-determination refugee claimants: Permanent residents determined to be members of the post-determination refugee claimants in Canada class (PDRCC) who are included in the other immigrant category. The PDRCC class is a prescribed class where permanent residence is granted to protect a client from a threat in the country of nationality or origin where there is a risk to the life of the applicant, or a risk of excessive sanctions or inhumane treatment.

Primary status: Temporary residents are categorized according to the principal reason for residing in Canada. The four categories of temporary residents are foreign workers, foreign students, the humanitarian population, and other temporary residents. Since 1989, the humanitarian component has consisted primarily of refugee claimants. These four categories, referred to as primary status, are mutually exclusive: any person included in one category is excluded from the others.

Principal applicants: Permanent residents identified as the principal applicant on their application for a permanent resident visa for themselves and, if applicable, accompanying spouse and/or dependants when they applied to immigrate to Canada. For individuals, families or households applying to immigrate to Canada in the skilled worker category, only the principal applicant is assessed on the basis of selection criteria in place at the time of the application.

Privately sponsored refugees: Permanent residents in the *refugee* category who are selected for resettlement in the Convention refugees abroad class, the source country class or the country of asylum class and who are privately sponsored by organizations, individuals or groups of individuals.

Province or territory: Refers to the province or territory of intended destination in Canada.

Provincial or territorial nominees: *Economic immigrants* selected by a province or territory for specific skills that will contribute to the local economy to meet specific labour market needs. The Regulations establish a provincial or territorial nominee class, allowing provinces and territories that have agreements with CIC to nominate a certain number of workers. A nominee must meet federal admissibility requirements, such as those related to health and security.

Refugee claimants: Refugee claimants are temporary residents in the *humanitarian population* category who request refugee protection upon or after arrival in Canada. A refugee claimant receives Canada's protection when he or she is found to be a Convention refugee as defined by the United Nations 1951 Geneva Convention Relating to the Status of Refugees and its 1967 protocol, or when found to be a person needing protection based on risk to life, risk of cruel and unusual treatment or punishment, or danger of torture as defined in the Convention against Torture. A refugee claimant whose claim is accepted may make an application in Canada for permanent residence. The applicant may include family members in Canada and abroad.

Refugee dependants: Refugee dependants are permanent residents in the *refugee* category who are family members of a refugee landed in Canada, and who were living abroad or in Canada at the time of application. Their applications for permanent residence are considered concurrently with that of the principal applicant in Canada.

Refugees: Permanent residents in the *refugee* category include government-assisted refugees, privately sponsored refugees, refugees landed in Canada and refugee dependants (i.e., dependants of refugees landed in Canada, including spouses and partners living abroad or in Canada).

Refugees landed in Canada: Permanent residents in the *refugee* category who have had their refugee claims accepted and who subsequently applied for and were granted permanent resident status in Canada.

Retirees: This immigration category, phased out in 1991, includes permanent residents in the *other immigrant* category who are over the age of 55, who come to Canada with no intention of working and who have sufficient funds to support themselves.

Self-employed: Economic immigrants in the business immigrant category selected on the condition that they can and intend to create their own employment in Canada and contribute significantly either to the Canadian economy or to the cultural or athletic life of Canada (as, for example, farmers, artists, actors, writers or professional athletes).

Skilled workers: *Economic immigrants* selected for their ability to participate in the labour market and to establish themselves economically in Canada. Skilled workers are assessed on the basis of selection criteria that stress education, language ability and skilled work experience rather than a specific occupation. Before IRPA, the skilled worker category included assisted relatives and independent immigrants.

Source countries: Refers to the principal country of last permanent residence (CLPR) for all permanent residents and temporary residents, unless otherwise indicated. For refugee claimants, source country refers to the principal country of alleged persecution (COAP). The ranking of the top ten source countries is based on the annual flow or stock in the most recent year.

Spouse and dependants: Permanent residents who are the spouse, common-law or conjugal partner, or dependent children of the principal applicant. Before IRPA (June 28, 2002), dependants were defined as the spouse and the dependent children of the principal applicant.

Student authorization: See **Study permit**.

Study permit: A temporary resident permit authorizing foreign nationals to enter and study in Canada on a temporary basis. The study permit identifies the level of study and the length of time the individual may study in Canada. Students do not need a study permit for courses shorter than six months.

Temporary resident flow: This represents the number of temporary residents identified as entering the CIC system (and presumably the country) for the first time. CIC commonly measures the annual flow of foreign workers, foreign students and the humanitarian component of the temporary resident population. Flows are calculated as of the earliest effective date of any valid permit issued to a temporary resident. Seasonal workers are counted each time they re-enter the system.

Temporary resident permit holders: Permanent residents in the *other immigrant* category who have lived continuously in Canada for three to five years under the authority of a temporary resident permit.

Temporary resident stock: Stock statistics measure the number of temporary residents present in the CIC system on a specific date. For the purposes of this publication, the date chosen is December 1. CIC commonly measures the annual stock of foreign workers, foreign students and the humanitarian component of the temporary resident population. A temporary resident who has been granted permanent resident status on or before the observation date is excluded from the stock count from the grant date onward.

Temporary residents: Temporary residents are people who are lawfully in Canada on a temporary basis under the authority of a temporary resident permit. Temporary residents include foreign workers, foreign students, the humanitarian population and *other* temporary residents. The humanitarian population includes refugee claimants and temporary residents allowed to remain in Canada on humanitarian grounds and who are not categorized as either foreign workers or foreign students. The *other* category of temporary residents includes people in Canada on a temporary basis who are not under the authority of a work permit or a study permit and who are not refugee claimants. The *other* category of temporary residents is not profiled in this publication.

Urban area: Refers to selected urban areas in Canada that are the intended destination for permanent and temporary residents. The urban areas are either census metropolitan areas or census agglomerations as identified and named in accordance with Statistics Canada's 1996 Census definitions for these geographical units.

Work permit: A temporary resident permit authorizing foreign nationals to enter and work in Canada on a temporary basis. A work permit is usually valid only for a specified job, employer and time period. Some people—for example, spouses or common-law partners of skilled foreign workers or foreign students—are issued "open" or non-employer-specific work permits.

Years of schooling: Number of years of schooling for permanent residents who are less than 15 years of age.

FOREWORD

A key mandate of the Strategic Research and Statistics Division, Citizenship and Immigration Canada (CIC), is the dissemination of immigration data. Our annual publication, *Facts and Figures: Immigration Overview—Permanent and Temporary Residents*, is one of the main sources of immigration statistics for both the government and the private sector. For this reason, we try to provide information on admissions to Canada that is of greatest interest to all parties.

Facts and Figures 2005: Immigration Overview—Permanent and Temporary Residents presents the annual intake of permanent residents by category of immigration and of temporary residents by primary status from 1980 to 2005. It also presents the annual December 1 stock of temporary residents in Canada during the same period. The main body of the publication consists of a series of statistical tables and charts covering the ten-year period from 1996 to 2005. The publication is divided into two separate sections, each depicting selected characteristics for the permanent resident population or the temporary resident population during this ten-year period.

All statistical information provided in this publication is derived from CIC's administrative data files. Based on the Permanent Resident Data System (PRDS), the statistics are provided for four main categories of permanent residents: family class, economic immigrants, refugees and other immigrants. The statistics on temporary residents and refugee claimants are derived from the Client-Based Data System (CBDS). The CBDS is a system for reporting administrative data that enables us to look at temporary residents and refugee claimants from either a client perspective or a document perspective. In this publication, we focus on the client as the key reporting unit rather than the number of permits or authorizations issued. We have defined four primary status groups of temporary residents based on the individual's primary motivation for being in Canada—foreign workers, foreign students, humanitarian cases (including refugee claimants) and other cases. CIC's Client-Based Data System makes this focus on client-based reporting possible for the temporary resident and refugee claimant population.

For information on Citizenship and Immigration Canada, its priorities and activities, publications and reports, as well as application guides and forms, visit the CIC Web site at www.cic.gc.ca.

OVERVIEW – ANNUAL IMMIGRATION

Since June 28, 2002, Canada's immigration program has been based on the *Immigration and Refugee Protection Act* (IRPA) and its regulations. IRPA replaces the *Immigration Act* of 1976 and makes a clear distinction between the basic social, cultural and economic goals of the immigration program and the humanitarian goals of the refugee protection program.

There are three basic categories of permanent residents: the economic class (skilled workers, business immigrants, provincial nominees and live-in caregivers, as well as members of their immediate family); the family class (spouses and partners, children, parents and grandparents of the sponsors); and the protected persons category (government-assisted and privately sponsored refugees selected abroad, individuals who are recognized in Canada as Convention refugees or persons in need of protection, as well as persons who have been granted protection through the pre-removal risk assessment process). Protected persons may include their family members in their application for permanent residence. In exceptional circumstances based on humanitarian, compassionate or public policy considerations, Citizenship and Immigration Canada (CIC) has the authority to grant permanent resident status to foreign nationals who do not meet the usual selection criteria. In addition to selecting permanent residents, CIC also grants temporary residence to foreign nationals who come to Canada to work, study or visit.

IRPA requires the minister of Citizenship and Immigration Canada to table an annual report to Parliament by November 1 of each year. This report includes information on CIC's activities and initiatives; the number of new permanent residents admitted during the year and the number projected for the following year; the number of permanent residents in each class admitted in the provinces that are responsible for selection under a federal-provincial agreement; the linguistic profile of new permanent residents; the number of temporary residents; the number of people granted permanent residence on humanitarian grounds; and a gender-based analysis of the immigration program.

The *Annual Report to Parliament on Immigration* is a presentation of the annual immigration levels plan. It provides an overview of projected immigration levels for the upcoming year as well as a comparison of planned versus actual levels for the current year. CIC's annual immigration plan provides a target range for the number of newcomers expected to become permanent residents in any given calendar year. In 2005, the planned target range was 220,000 to 245,000 new permanent residents.

Facts and Figures 2005: Immigration Overview—Permanent and Temporary Residents provides statistical information on Canada's immigration program within an analytical framework, but also presents a reconciliation of CIC's immigration program to the immigration levels plan. Differences may be noted between immigration as viewed from a levels planning perspective and immigration as described within an analytical framework. In this publication, cases processed under special circumstances or within historically specific programs (e.g., backlog cases and some humanitarian and compassionate cases) have been reallocated to categories that would have applied under usual circumstances. The annual levels achieved for the current year (no backlog reallocation) are presented along with a table showing the reallocation of backlog cases and another showing permanent residents by category with the reallocation of backlog and humanitarian and compassionate cases.

An historical perspective of immigration flows from 1860 to 2005 is also included in this section of the publication, along with the number of permanent residents as a percentage of the total Canadian population throughout this time period. Historical highlights relevant to Canada's immigration program throughout the 20th century (and into the early years of the 21st century) have also been included.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "—". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

Canada – Permanent Residents, 1860 to 2005

Historical highlights

- 1896 to 1905: the settlement of the West with an offer of free land results in large numbers of immigrants from the United Kingdom, Europe and the United States
- 1906: *Immigration Act*
- 1910: *Immigration Act*
- 1913: 400,000 immigrants arrive in Canada
- 1914 to 1918: immigration slump during World War I
- 1928: opening of Halifax's Pier 21, the Atlantic gateway to Canada
- 1930s: extremely low levels of immigration during the Depression years
- 1940s: during and after World War II, approximately 48,000 war brides and their 22,000 children arrive in Canada
- 1950s: Canada receives about one and a half million immigrants from Europe
- 1952: *Immigration Act*
- 1956 and 1957: Canada accepts 37,500 Hungarian refugees
- 1962: new immigration regulations are tabled to eliminate all discrimination based on race, religion and national origin
- 1967: the government amends Canada's immigration policy and introduces the point system for the selection of skilled workers and business immigrants
- 1968 and 1969: Canada takes in 11,000 Czechoslovakian refugees
- 1972: Canada resettles more than 6,175 Ugandan Asians
- 1973: Canada accepts more than 6,000 Chileans
- 1975 to 1978: Canada resettles almost 9,000 Indochinese
- 1978: Immigration Act (1976) came into effect April 10, 1978
- 1979 and 1980: 60,000 Vietnamese, Cambodian and Laotian "boat people" arrive in Canada
- 1999: Canada accepts more than 7,000 Kosovars
- 2002: *Immigration and Refugee Protection Act (IRPA)* came into force June 28, 2002

PERMANENT RESIDENTS

The *Immigration and Refugee Protection Act* establishes three basic categories of permanent residents, which correspond to major program objectives: reuniting families, contributing to economic development and protecting refugees. In addition, there is a fourth category comprised of other immigrants. The family class is comprised of foreign nationals sponsored by close relatives or family members in Canada and includes spouses and partners, dependent children, parents and grandparents. Economic immigrants are people selected for their skills and ability to contribute to Canada's economy, including skilled workers, business immigrants, provincial nominees and live-in caregivers. The skilled worker component includes immigrants who are able to demonstrate their ability to enter the labour market and successfully establish in Canada by meeting a selection criteria that assesses factors such as education, English or French language abilities, and work experience involving certain skills. The business immigrant component includes those who invest their money in an approved venture, those who intend to run their own business, or those who intend to be self-employed. Refugees include government-assisted refugees, privately sponsored refugees, refugees landed in Canada and dependants of refugees landed in Canada who live abroad. Other immigrants include temporary resident permit holders, humanitarian and compassionate cases (that is, persons exempted from the requirements of IRPA or its regulations by the minister of Citizenship and Immigration Canada for humanitarian or public policy reasons), retirees, persons with deferred removal orders, and post-determination refugee claimants.

Selected landing and sociodemographic characteristics are presented for all permanent residents (immigrants and refugees) for the 1996 to 2005 calendar years. Statistical tables and charts provide gender-based information on immigrant category, source countries, intended destination upon arrival in Canada, age at landing, level of education, marital status, language ability, occupational skill level and intention to work. Information pertaining to marital status, level of education, occupational skill level and intention to work is presented only for the permanent resident population 15 years of age or older. This population corresponds to the labour force population as defined in the Census of Population. Supplementary tables for the permanent resident population include statistical information showing the number of years of schooling for children less than 15 years old, the top ten source countries for each world source area, the level of education for new workers and the occupational skill level for skilled workers.

This year, changes were introduced in the way details for the economic immigration category are reported. In addition to the components reported individually in the 2004 edition of *Facts and Figures*, the provincial/territorial nominees are now shown separately for principal applicants and spouses and dependants. Also, groupings for marital status were reviewed to better reflect common-law relationships. In this report, married immigrants are reported together with common-law partners. Therefore, differences in the distribution of immigrants by marital status are noticeable in this edition of *Facts and Figures* as compared to that shown in last year's report.

All statistical information for permanent residents in this section refers to principal applicants and dependants (unless otherwise noted) and includes backlog cases.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "--". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

* Deferred removal orders and post-determination refugee claimants

** Humanitarian and Compassionate

*** Note: The figures for "Humanitarian and compassionate grounds" have been adjusted since the publication of the Annual Report to Parliament on Immigration - 2003.

CIC has refined its method of calculating its numbers to increase accuracy. The numbers appearing in this table may differ from those released in other publications prior to 2004.

Canada – Permanent Residents 15 Years of Age or Older Intending to Work by Category and Language Ability, 2005 (Showing Percentage Distribution)

TEMPORARY RESIDENTS

In addition to the selection of permanent residents, the immigration program provides for the temporary entry of foreign workers and business people, foreign students and tourists. Citizenship and Immigration Canada admits a wide range of temporary residents who come to Canada as workers, students or visitors. The temporary resident population is comprised of four mutually exclusive groups: foreign workers, foreign students, individuals in the humanitarian group and other cases. Foreign workers are in Canada primarily to work, although they may also have other permits or authorizations. Foreign students are in Canada primarily to study, although they too may have other permits or authorizations. Individuals in the humanitarian group are primarily refugee claimants, but this group also includes certain people allowed to remain in Canada on humanitarian grounds due to other "special considerations." The inclusion of refugee claimants in the humanitarian cases group warrants special mention. They are included in this group along with individuals who did not make refugee claims, according to the administrative data systems, but who were processed under special programs established to handle refugee-like cases. The humanitarian cases group includes a small number of individuals who have been allowed to remain in Canada on humanitarian or compassionate grounds but who have never filed a refugee claim. The final group—other cases—is not profiled in this publication. It comprises individuals who do not fit into any of the other categories.

The statistical information presented in this section is based on the individual's primary motivation for being in Canada—to work or to study—although individuals in either group may also be in possession of other permits or authorizations. Information is also provided for the humanitarian component of the temporary resident population. A summary of gender-based flow statistics (based on the calendar year) and stock statistics (based on December 1 of the calendar year) is provided for 1980 through 2005. In addition, for each group, gender-based flow and stock statistics for the ten-year period from 1996 to 2005 are provided by country of origin, place of residence in Canada (provinces or territories and urban area), skill level for foreign workers, and level of study for foreign students. Statistics are also provided for adult refugee claimants showing the percentage who have been granted authorization to work at any time since their arrival in Canada.

With this edition of Facts and Figures, changes are introduced in the way the December 1st stock of temporary residents is calculated. In the past, for an individual holding multiple valid documents (i.e. permits or authorizations) on December 1st, information from the first document issued was used as the basis for identifying all characteristics of this temporary resident (e.g., destination in Canada). With this report, the characteristics of the temporary residents on December 1st are now based on the latest document issued. This method allows for a more accurate indication of the situation at the time the stock of temporary residents is calculated.

Note: Due to privacy considerations, some cells in the following tables have been suppressed and replaced with the notation "--". As a result, components may not sum to total indicated. In general, we have suppressed cells containing less than five cases except in circumstances where, in our judgement, we are not releasing personal information on an identifiable individual.

GLOSSARY OF TERMS AND CONCEPTS

Age: Five age groups are shown for permanent residents: 0 to 14 years, 15 to 24 years, 25 to 44 years, 45 to 64 years and 65 years or older. Age refers to age at landing (when granted permanent resident status).

Assisted relatives: The assisted relative category is a pre-IRPA immigration category that includes independent immigrants who receive additional bonus points for having a relative in Canada and who do not qualify as members of the family class. An assisted relative may be the son or daughter, brother or sister, niece or nephew, aunt or uncle, or grandson or granddaughter of a Canadian citizen or a permanent resident who is at least 19 years of age and who resides in Canada.

Backlog cases: People granted permanent resident status as part of the 1989 Refugee Backlog Clearance program.

Business immigrants: Permanent residents in the *economic immigrant* category selected on the basis of their ability to establish themselves economically in Canada through entrepreneurial activity, self-employment or direct investment. Business immigrants include entrepreneurs, self-employed people and investors. The spouse or common-law partner and the dependent children of the business immigrant are also included in this category.

Category: Four immigration categories are shown for permanent residents: family class, economic immigrants, refugees and other immigrants. In reference to labour market characteristics, the economic immigrant category is further divided into two subgroups: principal applicants, and spouses and dependants.

Common-law partner: A common-law partner is a person who has been living in a conjugal relationship with the sponsor for at least one year. The term refers to both opposite-sex and same-sex relationships. The sponsor must be a Canadian citizen or a permanent resident who is at least 18 years of age and who resides in Canada.

Conjugal partner: A conjugal partner is a person who has maintained a conjugal relationship with the sponsor for at least one year but has been unable to live with the sponsor because of immigration impediments. The term refers to both opposite-sex and same-sex couples. The sponsor must be a Canadian citizen or a permanent resident who resides in Canada and who is at least 18 years of age.

Deferred removal orders: Permanent residents determined to be members of the deferred removal orders class who are included in the *other immigrant* category. This category was established to resolve the cases of certain failed refugee claimants who have not been removed from Canada.

Dependent children: Children are dependent if they are unmarried and under the age of 22, or if they have been full-time students since before the age of 22, attend a post-secondary educational institution and have been substantially dependent on the financial support of a parent since before the age of 22 or, if married or a common-law partner, since becoming a spouse or a common-law partner, or if 22 or older, they have been substantially dependent on the financial support of a parent since before the age of 22 because of a physical or mental condition. A dependent child is either a biological child or an adopted child.

Before IRPA (June 28, 2002), the dependent children of a landed immigrant were defined as children who were unmarried and under 19 years of age or who were continuously enrolled as full-time students in an educational institution and financially supported by their parents since reaching the age of 19 (or, if married before the age of 19, from the date of their marriage) or who, because of a medical condition, were unable to support themselves and were dependent on their parents for financial support.

Economic immigrants: Permanent residents selected for their skills and ability to contribute to Canada's economy. The *economic immigrant* category includes skilled workers, business immigrants, provincial or territorial nominees and live-in caregivers.

Employment authorization: See **Work permit**.

Entrepreneurs: Economic immigrants in the *business immigrant* category who are selected on the condition that they have managed and controlled a percentage of equity of a qualifying business for at least two years in the period beginning five years before they apply, and that they have a legally obtained net worth of at least \$300,000 (Canadian). They must own and manage a qualifying business in Canada for at least one year in the three years following arrival in Canada.

Family class: Permanent residents sponsored by a Canadian citizen or a permanent resident living in Canada who is 18 years of age or over. *Family class* immigrants include spouses and partners (i.e., spouse, common-law partner or conjugal partner); parents and grandparents; and others (i.e., dependent children, children under the age of 18 whom the sponsor intends to adopt in Canada, brothers, sisters, nephews, nieces and grandchildren who are orphans under 18 years of age, or any other relative if the sponsor has no relative as described above, either abroad or in Canada). Fiancé(e)s are no longer designated as a component of the family class under the *Immigration and Refugee Protection Act*.

Foreign students: This category includes individuals who enter Canada to study on a temporary basis. Every foreign student must have been issued a study permit but may also have been issued other types of permits or authorizations. The *foreign student* category excludes foreign workers who may have been issued a study permit, as well as humanitarian and compassionate cases who have been issued a study permit.

Foreign workers: This category includes individuals who enter Canada to work on a temporary basis. Every foreign worker must have been issued a work permit but may also have been issued other types of permits or authorizations. The *foreign worker* category excludes foreign students who may have been issued a work permit associated with their studies or status as a student and individuals who have been issued a work permit for humanitarian reasons, such as refugee claimants.

Government-assisted refugees: Permanent residents in the *refugee* category who are selected for resettlement in the Convention refugees abroad class or the source country class and who are eligible for government assistance.

Humanitarian and compassionate cases: Permanent residents in the *other immigrant* category, including sponsored humanitarian and compassionate cases outside the family class, as well as humanitarian and compassionate cases without sponsorship and cases that take into account public policy.

Immigration Act (1976): Federal legislation respecting immigration to Canada. *The Immigration Act* of 1976 became law in 1978 and remained in effect until June 27, 2002.

Immigration and Refugee Protection Act (IRPA): Federal legislation respecting immigration to Canada and the granting of refugee protection to people who are displaced, persecuted or in danger. IRPA received royal assent on November 1, 2001, and came into effect on June 28, 2002.

Independent immigrants: The independent immigrant category is a pre-IRPA immigration category that includes skilled workers selected for their labour market skills and business immigrants selected on the basis of their business experience and other related skills.

Industrial codes: Economic immigrants in the *business immigrant* category who have declared their industry of activity, in lieu of their intended occupation.

Investors: Economic immigrants in the *business immigrant* category who are required to make a substantial investment in Canada that is allocated to participating provinces and territories for economic development and job creation.

Language ability: Four categories of language ability in one of Canada's official languages are shown for permanent residents: English only, French only, both French and English, and neither language. These are self-declared indicators of knowledge of an official language.

Level of education: Eight levels of education have been determined for permanent residents who are 15 years of age or older, based on the number of years of schooling or the certificate, diploma or degree obtained.

- 0 to 9 years of schooling
- 10 to 12 years of schooling
- 13 or more years of schooling, with no additional certificate, diploma or degree
- Trade certificate: completion of vocational training at non-university educational institutions
- Non-university diploma: completion of a diploma program not at the university or trade level
- Bachelor's degree: completion of a bachelor's program at the university level
- Master's degree: completion of a master's program at the university level
- Doctoral degree: completion of a doctoral program at the university level

Level of study: Five levels of study have been determined for foreign students.

- Secondary or less: primary or secondary educational institutions in Canada
- Trade: vocational trade at non-university educational institutions in Canada (such as technical and vocational institutions, CEGEPs and colleges)
- University: undergraduate, postgraduate (master's and doctoral) and other studies at university institutions in Canada
- Other post-secondary: post-secondary level of study, not at the university or trade level, including language institutions, private institutions and university qualifying programs
- Other: foreign students not classified in any of the above levels of study

Live-in caregivers: *Temporary residents* who have been issued a work permit to work in Canada as live-in caregivers or *economic immigrants* granted permanent resident status after their participation in the Live-in Caregiver Program. This program brings temporary residents to Canada as live-in employees to work without supervision in a private household to care for children, seniors or people with disabilities. Participants in this program may apply for permanent resident status within three years of arrival in Canada, after completing two years of employment as live-in caregivers. The Live-in Caregiver Program replaced the Foreign Domestic Movement Program on April 27, 1992.

New workers: Permanent residents who are intending to work in Canada but who are without a declared occupation. Occupational skill level cannot be assessed.

Occupational skill level: Five skill levels, based on the National Occupational Classification, have been determined for permanent residents 15 years of age or older as well as for foreign workers.

- Skill level O (managerial): management occupations
- Skill level A (professionals): professional occupations in business and finance; natural and applied sciences; health; social science, education, government service, and religion; and art and culture
Educational or training requirements: university degree
- Skill level B (skilled and technical): skilled or technical occupations in administration and business; natural and applied sciences; health; law, social service, education, and religion; art, culture, recreation and sport; sales and service; as well as trades and skilled transport and equipment operators; skilled occupations in primary industries; and processing, manufacturing and utilities supervisors and skilled operators
Educational or training requirements: two to three years of post-secondary education, or two to five years of apprenticeship training, or three to four years of secondary school and more than two years of on-the-job training, occupation-specific training courses or specific work experience
- Skill level C (intermediate and clerical): clerical occupations; assisting occupations in health services; intermediate occupations in sales and services; transport, equipment operations, installation and maintenance; primary industries; as well as processing and manufacturing machine operators and assemblers
Educational or training requirements: one to four years of secondary school education, or up to two years of on-the-job training, training courses or specific work experience
- Skill level D (elemental and labourers): elemental sales and service occupations and labourers in construction; primary industries; and processing, manufacturing and utilities
Educational or training requirements: no formal educational requirements; short work demonstration or on-the-job training

Other immigrants: Permanent residents in the *other immigrant* category include post-determination refugee claimants, deferred removal orders, retirees (no longer designated under the *Immigration and Refugee Protection Act*), temporary resident permit holders, humanitarian and compassionate cases, sponsored humanitarian and compassionate cases outside the family class, and people granted permanent resident status based on public policy considerations.

Permanent residents: People who have been granted permanent resident status in Canada. Permanent residents must live in Canada for at least 730 days (two years) within a five-year period or risk losing their status. Permanent residents have all the rights guaranteed under the Canadian Charter of Rights and Freedoms such as equality rights, legal rights, mobility rights, freedom of religion, freedom of expression and freedom of association. They do not, however, have the right to vote in elections.

Post-determination refugee claimants: Permanent residents determined to be members of the post-determination refugee claimants in Canada class (PDRCC) who are included in the *other immigrant* category. The PDRCC class is a prescribed class where permanent residence is granted to protect a client from a threat in the country of nationality or origin where there is a risk to the life of the applicant, or a risk of excessive sanctions or inhumane treatment.

Primary status: Temporary residents are categorized according to the principal reason for residing in Canada. The four categories of temporary residents are foreign workers, foreign students, the humanitarian population, and other temporary residents. Since 1989, the humanitarian component has consisted primarily of refugee claimants. These four categories, referred to as primary status, are mutually exclusive: any person included in one category is excluded from the others.

Principal applicants: Permanent residents identified as the principal applicant on their application for a permanent resident visa for themselves and, if applicable, accompanying spouse and/or dependants when they applied to immigrate to Canada. For individuals, families or households applying to immigrate to Canada in the skilled worker category, only the principal applicant is assessed on the basis of selection criteria in place at the time of the application.

Privately sponsored refugees: Permanent residents in the *refugee* category who are selected for resettlement in the Convention refugees abroad class, the source country class or the country of asylum class and who are privately sponsored by organizations, individuals or groups of individuals.

Province or territory: Refers to the province or territory of intended destination in Canada.

Provincial or territorial nominees: *Economic immigrants* selected by a province or territory for specific skills that will contribute to the local economy to meet specific labour market needs. The Regulations establish a provincial or territorial nominee class, allowing provinces and territories that have agreements with CIC to nominate a certain number of workers. A nominee must meet federal admissibility requirements, such as those related to health and security.

Refugee claimants: Refugee claimants are temporary residents in the *humanitarian population* category who request refugee protection upon or after arrival in Canada. A refugee claimant receives Canada's protection when he or she is found to be a Convention refugee as defined by the United Nations 1951 Geneva Convention Relating to the Status of Refugees and its 1967 protocol, or when found to be a person needing protection based on risk to life, risk of cruel and unusual treatment or punishment, or danger of torture as defined in the Convention against Torture. A refugee claimant whose claim is accepted may make an application in Canada for permanent residence. The applicant may include family members in Canada and abroad.

Refugee dependants: Refugee dependants are permanent residents in the refugee category who are family members of a refugee landed in Canada, and who were living abroad or in Canada at the time of application. Their applications for permanent residence are considered concurrently with that of the principal applicant in Canada.

Refugees: Permanent residents in the *refugee* category include government-assisted refugees, privately sponsored refugees, refugees landed in Canada and refugee dependants (i.e., dependants of refugees landed in Canada, including spouses and partners living abroad or in Canada).

Refugees landed in Canada: Permanent residents in the *refugee* category who have had their refugee claims accepted and who subsequently applied for and were granted permanent resident status in Canada.

Retirees: This immigration category, phased out in 1991, includes permanent residents in the *other immigrant* category who are over the age of 55, who come to Canada with no intention of working and who have sufficient funds to support themselves.

Self-employed: Economic immigrants in the *business immigrant* category selected on the condition that they can and intend to create their own employment in Canada and contribute significantly either to the Canadian economy or to the cultural or athletic life of Canada (as, for example, farmers, artists, actors, writers or professional athletes).

Skilled workers: *Economic immigrants* selected for their ability to participate in the labour market and to establish themselves economically in Canada. Skilled workers are assessed on the basis of selection criteria that stress education, language ability and skilled work experience rather than a specific occupation. Before IRPA, the skilled worker category included assisted relatives and independent immigrants.

Source countries: Refers to the principal country of last permanent residence (CLPR) for all permanent residents and temporary residents, unless otherwise indicated. For refugee claimants, source country refers to the principal country of alleged persecution (COAP). The ranking of the top ten source countries is based on the annual flow or stock in the most recent year.

Spouse and dependants: Permanent residents who are the spouse, common-law or conjugal partner, or dependent children of the principal applicant. Before IRPA (June 28, 2002), dependants were defined as the spouse and the dependent children of the principal applicant.

Student authorization: See **Study permit**.

Study permit: A temporary resident permit authorizing foreign nationals to enter and study in Canada on a temporary basis. The study permit identifies the level of study and the length of time the individual may study in Canada. Students do not need a study permit for courses shorter than six months.

Temporary resident flow: This represents the number of temporary residents identified as entering the CIC system (and presumably the country) for the first time. CIC commonly measures the annual flow of foreign workers, foreign students and the humanitarian component of the temporary resident population. Flows are calculated as of the earliest effective date of any valid permit issued to a temporary resident. Seasonal workers are counted each time they re-enter the system.

Temporary resident permit holders: Permanent residents in the *other immigrant* category who have lived continuously in Canada for three to five years under the authority of a temporary resident permit.

Temporary resident stock: Stock statistics measure the number of temporary residents present in the CIC system on a specific date. For the purposes of this publication, the date chosen is December 1. CIC commonly measures the annual stock of foreign workers, foreign students and the humanitarian component of the temporary resident population. A temporary resident who has been granted permanent resident status on or before the observation date is excluded from the stock count from the grant date onward.

Temporary residents: Temporary residents are people who are lawfully in Canada on a temporary basis under the authority of a temporary resident permit. Temporary residents include foreign workers, foreign students, the humanitarian population and *other* temporary residents. The humanitarian population includes refugee claimants and temporary residents allowed to remain in Canada on humanitarian grounds and who are not categorized as either foreign workers or foreign students. The *other* category of temporary residents includes people in Canada on a temporary basis who are not under the authority of a work permit or a study permit and who are not refugee claimants. The *other* category of temporary residents is not profiled in this publication.

Urban area: Refers to selected urban areas in Canada that are the intended destination for permanent and temporary residents. The urban areas are either census metropolitan areas or census agglomerations as identified and named in accordance with Statistics Canada's 1996 Census definitions for these geographical units.

Work permit: A temporary resident permit authorizing foreign nationals to enter and work in Canada on a temporary basis. A work permit is usually valid only for a specified job, employer and time period. Some people—for example, spouses or common-law partners of skilled foreign workers or foreign students—are issued "open" or non-employer-specific work permits.

Years of schooling: Number of years of schooling for permanent residents who are less than 15 years of age.
